

# Call for Abstracts

Young Scientists\* Conference

## "Disciplinary Research through a Gender and Diversity Lens"

Interdisciplinary research conference by and for young scientists\* of the OVGU.

Organized by the Faculty of Human Sciences in cooperation with the Office for Gender Equality of the Otto-von-Guericke-University Magdeburg.  
27.05.2020

Organisation: Prof<sup>in</sup>. Dr<sup>in</sup>. Susanne Peters, Dean of the FHS  
Dr<sup>in</sup>. Sandra Tiefel, Central Gender Equality Officer

Technology, work, education and health are only a few of the fields in which behavior patterns and needs differ by biological and social gender and diversity characteristics. This variation is increasingly reflected in a wide range of research, from barrier-free urban planning to age-appropriate digitisation and technologisation to gender-specific medication. The aim of the Young Scientists\* Conference is to facilitate an interdisciplinary exchange between researchers who take an ex- or implicit look at gender and/or diversity from their respective disciplinary perspectives.

We welcome all abstracts,

- ❖ **that explicitly focus on gender in their research**  
(E.g. Gender mainstreaming in a comparative perspective, gender as an independent characteristic or part of diversity?)
- ❖ **that place an explicit focus on diversity in their research**  
(E.g. Religious diversity and social integration, age-appropriate working environment(s) and/or learning concepts)
- ❖ **that focus on a specific group or characteristic in their research**  
(E.g. Discrimination against men in childcare, the characteristics of a female heart attack, making the Internet available to people with visual impairment)
- ❖ **that compare between groups or characteristics in their research**  
(E.g. Gender Pay Gap, Educational successes of people with and without a migration background)
- ❖ **or a combination thereof.**

All junior researchers\* (including post-docs\*) at the OVGU are invited to present findings from ongoing or completed research in their respective discipline at the Young Scientists\* Conference "Disciplinary Research with a View to Gender and Diversity". Applicants\* have the opportunity to present their research in the form of short presentations and scientific posters.

Contributions from researchers from all fields of research are welcome, for example:

- ❖ computer science
- ❖ (including MINT areas)
- ❖ product development
- ❖ labour market and labour market research
- ❖ health and care research
- ❖ medicine and neuroscience
- ❖ economy
- ❖ media education
- ❖ humanities, social sciences and educational sciences
- ❖ and many more

Abstracts can be submitted as PDF files until 20.01.2020 by e-mail to the following address:  
[bianca.lange@ovgu.de](mailto:bianca.lange@ovgu.de).

Notes on submitting abstracts:

- ❖ Abstracts should contain between 300 and 500 words
- ❖ Abstracts can be written in German or English language
- ❖ Research with several authors\*: Enter the names and affiliations of all authors\* and identify the presenter\*. Correspondence on the abstract will be conducted with the submitter\*. Unless otherwise indicated in the abstract, the person\* submitting the abstract will be included in the programme as the presenter\*.
- ❖ Enter a preference for verbal presentation or poster presentation. It might not be possible to consider all wishes - in that case you will be informed about any changes as early as possible.
